## **OJT Hands on Exercise/Training:**

Sr. No.	Training / Hands on Exercise	Hrs.
1	Define the user experience design process and standards	20
	PC1. Implement core design principles throughout the user experience design process	
	(relevant to current time)	
	PC2. develop research methods that enable the collection of user requirements and user behavior patterns	
	PC3. drive the empathy mapping process to understand users' needs, goals, expectations, behavior, habits	
	PC4. develop frameworks for brainstorming, imagining and reflecting on possible solution outcomes	
	PC5. drive the prototyping process by facilitating sketching, visualization and beta version development processes	
	PC6. drive processes for user behavior research, user persona development, user journeys and user flows	
2	Design and define style guide/ design system and specifications for developers	20
	PC1. define typography systems, i.e., titles, subtitles, headings (H1, H2, H3), body text and captions used in design	
	PC2. provide specifications and examples for spacing, padding and placement of design elements	
	PC3.address interface layouts across screen sizes define colour palette, specifications, combinations, and provide relevant examples	
	PC5specify the sizes, styles, colors, placement, spacing and typographic elements of various buttons to be used in the solution based on context	
	PC6. provide guidelines for the different UI components that may be needed,	
	including Iconography, Tooltips and popovers, Modals, Form elements, Data	
	Tables, Navigation menus, Charts and data visualizations, Tabs, On-off	
	switches, Dialogs, Content grid lists, Vertical lists, Toolbars, Date and time	
	pickers, Loading indicators, Checkboxes, Alerts, Dropdown menus, Sliders, Steppers and Pagination etc.	
	PC7. document the design rationale used in the design system	
3	Understand the business goals and define use cases as per the user needs	20
_	PC1. identify business problems/opportunities which can serve as prospective business cases	
	PC2. evaluate organizational capability to deliver identified business cases	

## **GUJARAT TECHNOLOGICAL UNIVERSITY**

**Bachelor of Vocation (B.Voc)** 

Semester: III

**Branch: Software Development** 

Subject Name: User Experience Designer OJT Elective

# Subject Code: 21130207

	Subject Code: 21130207	
	PC3. effectively communicate the findings and recommendations of identified business cases to all relevant stakeholders within the organization	
	PC4. gather stakeholder support to develop solutions for identified business cases	
	PC5. develop new use cases for identified business cases	
	PC6. help define business goals and technical specifications of the solution as per	
	requirements	
	PC7. establish relationships with key relevant stakeholders such as design teams,	
	business managers, product managers, etc.	
	PC8. drive processes for user behavior research, user persona development, user	
	journeys and user flows	
4	Conduct a competitive analysis on strength and weakness of competitors	20
	Products	
	PC1. gather and analyze intelligence about products, customers competitors and landscapes	
	PC2. identify standard and emerging UI/UX trends, design principles and best practices	
	PC3. stay up to date with latest industry trends	
	PC4. track both leading and emerging solutions across the spectrum of solution	
	providers	
	PC5. evaluate solutions based on criteria such as tone, features, user reviews,	
	wait/load times, customer service, overall design, etc.	
	PC6. list overall strengths and weakness of various solutions	
5	Create user personas to encapsulate and communicate user behavior	20
-	patterns	-
	PC1. determine method(s) of research to collect user behavior data	
	PC2. recruit diverse unbiased users to participate in research considering both	
	demographic and psychographic factors	
	PC3. gather user behavior data through questionnaires, online/offline/face-to-face	
	interviews, group discussions, etc.	
	PC4. evaluate user behavior data gathered in user interviews	
	PC5. tag the most important insights and problems gathered from user interviews	
	PC6. ensure that data shows the current state of the interviewees instead of their	
	expectation of the future	
	PC7. look for specific and repeatable metrics and patterns across users	
	PC8. classify users into various possible groups based on identified metrics and	
	patterns	
	PC9. narrow search by minimizing and restricting the number of possible user groups	
	PC10. for each user group, create a suitable identity who could represent the group	
	PC11. create a name for the identity and and choose an appropriate image to represent	
	the person	
	PC12. create a comprehensive persona for the person, including age, education, occupation, skills, attitude, likes, dislikes, habits, etc	
	PC13. ensure that personas sufficiently reflect the data and conclusions of	
	investigations	
	PC14. evaluate scenarios in which the personas have a need to use the solution	
	PC15. utilize personas to optimize function design throughout the entire development	
6	Develop sitemap and information architecture for the solution planned for the	10
	customer	

## GUJARAT TECHNOLOGICAL UNIVERSITY

**Bachelor of Vocation (B.Voc)** 

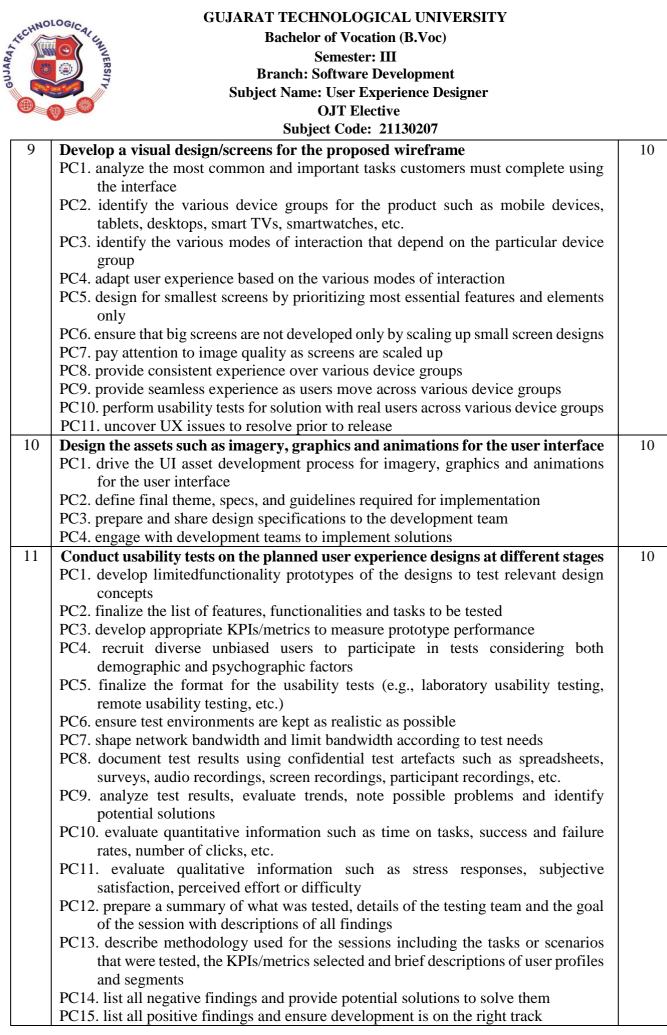

Semester: III

**Branch: Software Development** 

Subject Name: User Experience Designer

#### OJT Elective Subject Code: 21130207

	Subject Code: 21130207	
7	<ul> <li>PC1. create a list of information elements on all the pages of the solution</li> <li>PC2. include all information related to headings and subheadings, texts, media files (images, video, audio), documents (doc, pdf, ppt) and URL-links of the pages</li> <li>PC3. create a taxonomy to group all the different unstructured pieces of information and give them descriptions</li> <li>PC4. design navigation such that visitors are able to find what they need</li> <li>PC5. create a navigation system which consists of elements such as buttons, menus and tables of content</li> <li>PC6. determine which navigation style to use in the solution (e.g., hierarchical, global/sitewide, local, etc.)</li> <li>PC7. create appropriate labelling to attract user attention and give user proper understanding of what to expect from clicking on a link</li> <li>PC8. determine which site map pattern to use (such as single page model, flat structure, index pages pattern, strict hierarchy pattern, co-existing hierarchies' pattern, etc.)</li> <li>PC9. create sitemaps to illustrate the hierarchy of content and display navigation</li> <li>PC10. share information architecture and site maps with relevant stakeholders and developers</li> </ul>	10
	<ul> <li>Develop user experience maps, user journeys and user flows</li> <li>PC1. determine the scope of the user experience map</li> <li>PC2. ascertain the expectations that a user persona has about the interaction with the solution</li> <li>PC3. describe the stages that the user experiences while engaging with the solution</li> <li>PC4. clearly define how customers discover your solution, evaluate your services, pick you over competitors, purchase from you, and engage with you</li> <li>PC5. establish the touch points for the customer to interact with the solution</li> <li>PC6. sketch the journey in a format of step-by-step interaction</li> <li>PC7. evaluate user goals and the various user flows possible to achieve a particular user goal</li> <li>PC8. ensure that the flows effectively represent complexities such as multiple users, scenarios, touch points, mediums, etc.</li> </ul>	10
8	<ul> <li>Develop detailed wireframes to illustrate flow, interactions and interface elements</li> <li>PC1. develop wireframes to highlight flow, interactions, function, features, and basic design elements based on the form factor or screen size of the device</li> <li>PC2. ensure that wireframe transitions look clear and logical</li> <li>PC3. gather and analyze information about users on a regular basis</li> <li>PC4. evaluate the goals of the customer and what they wanted to achieve while using the solution</li> <li>PC5. identify the intention of the user during the various customer phases</li> <li>PC6. determine points of friction faced by the customer and evaluate the flow for better user experience</li> <li>PC7. develop and evaluate a wireframe prototype to evaluate user flow and interactions</li> <li>PC8. evaluate the overall experience and feedback of the customer</li> <li>PC9. continuously use the information from usability testing sessions and app analytics to refine user journey</li> </ul>	10

## GUJARAT TECHNOLOGICAL UNIVERSITY Bachelor of Vocation (B.Voc) Semester: III Branch: Software Development Subject Name: User Experience Designer OJT Elective Subject Code: 21130207

## **Course Outcomes:**

Sr. No.	CO Statements	Marks Weightage %
1	Understand the concepts of the User Experience Design process with different UI/UX / graphics designing software.	15
2	Apply Design and style guide/ design system and specifications for UI/UX / graphics design.	15
3	Apply the concepts of business goals as per user needs for designing.	15
4	Conduct the analysis on strength and weakness of products.	15
5	Identify the data and classification as per user behavior patterns.	10
6	Apply the concepts of sitemap, planning, flow, interface elements, visual design.	10
7	Apply and Design the assets such as imagery, graphics and animations.	10
8	Apply different test criteria, knowledge, skills, competence, maintain relationship, collaboration with the user.	10
